Accessory code

6013: Aluminium flange for installation on poles ø 120 mm - for 2 projectors MaxiWoody ø260-ø315-ø380/ iPro □192mm

Technical description

Aluminium die-cast flange with surface treatment by texturised liquid painting. It can be installed on any ø120mm-pole with no need to make holes for mechanical anchoring. It permits rotating completely the Maxiwoody projector in all directions thanks to the combined projector/flange rotations (continuous) and bracket/flange rotations (360°). Installation is guaranteed by stainless-steel nuts, bolts and screws. Each flange has hexagonal seats for nut antirotation

Installation

Installation on ø120-mm cylindrical pole by means of four M8x45-mm screws and four self-blocking nuts - all in stainless-steel

Colour

White (01) | Black (04) | Grey (15) | Rust Brown (F5)

Weight (Kg)

1.6

Wiring

The power-supply cable passes through a cabling sheath (hole diameter = 15 mm) to enter the pole.

Complies with EN60598-1 and pertinent regulations

960°C
