Last information update: January 2025

Accessory code

PD79: 3-way junction / splitter - for 2-3 Crystal recessed luminaires

Technical description

Junction / Splitter for connecting multiple recessed luminaires: this component allows 2 or max 3 recessed luminaires to be connected. Plastic technical container containing the wiring required for 3 outputs - for connecting to products - and 1 junction for connecting to the specific driver. The output cables are fitted with a quick-coupling terminal block to facilitate connection operations. For making longer distance connections, intermediate extension cables are available.

Installation

to be positioned in the false ceiling

Colour

Indeterminate (00)

Weight (Kg)

0.13

Wiring

max 3 outputs available for recessed luminaires + 1 connection for driver - all the cables are fitted with a quick-coupling terminal block.

Notes

The single recessed luminaire and its relative driver are connected directly - a junction / splitter does not need to be used.

Complies with EN60598-1 and pertinent regulations
