#### Product configuration: E902

E902: Wall-mounted system with street optic.

## E902: Wall-mounted system with street optic. Attention! Code no longer in production

### Technical description

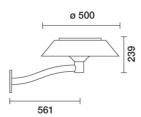

Outdoor luminaire with a street optic (ST1.C), designed to use LED lamps, supplied with a painted steel wall-mounted arm L=561mm. The optical assembly is made of EN1706AC 46100LF aluminium alloy and subjected to a multi-step, pre-treatment process, in which the main phases are degreasing, fluorozirconation (a protective surface film) and sealing (with a nano-structured silane layer). The painting stage consists of a primer and a liquid acrylic paint, cured at 150 °C, with a high level of weather and UV ray resistance. Diffusor made of shockproof, UV-stabilised injection moulded polycarbonate. Complete with circuit having monochrome LEDs and polymer optic multilayer lenses. Changeable driver and LEDs. Electronic driver with automatic Midnight recognition and an automatic internal temperature control system. All external screws are made of stainless steel.

Weight (Kg)

7.9

# Installation

Grey (15)

Wall-mounted installation.

Mounting wall arm|wall surface

Wiring The product is supplied wired and with an outlet cable.

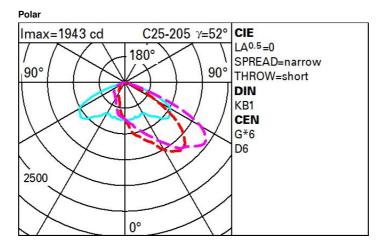

### Notes

Overvoltage protection: 10KV Common Mode, 6KV Differential Mode
