Laser Blade XS

| Design iGuzzini	iGuzzini

Last information update: June 2025

Product configuration: QJ10
QJ10: Minimal 5 cells - Flood beam - LED

Product code
QJ10: Minimal 5 cells - Flood beam - LED

Technical description
Linear miniaturised recessed luminaire with 5 optical elements for LED lamps - fixed optic. Despite the ultracompact size of the product, the patented technology of the optic system guarantees an efficient luminous flux and a high level of controlled glare visual comfort. Main body with die-cast aluminium radiant surface, minimal (frameless) version for mounting flush with the ceiling. For recessed installation in a false ceiling a specific adapter is required that is available with a separate item code. Metallised, thermoplastic, high definition Opti Beam reflector, integrated in a set-back position in the anti-glare screen. Supplied with a dimmable DALI power supply unit connected to the luminaire.

Installation
The luminaire is recessed in the specific adapter (QJ90) by means of a steel wire spring, previously installed on the ceiling that can be 12.5 / 15 / 20 mm thick. A special protective sheath allows finishing operations on the plasterboard to be simplified and speeded up.

Colour	Weight (Kg)
White (01) | Black (04) | Gold (14)* | Burnished chrome (E6)*	0.32

* Colours on request
Mounting
wall recessed|ceiling recessed

Wiring
On the power supply unit with terminal board included.

Notes
The special steel wire spring provided is required to facilitate the eventual extraction of the recessed body once it has been inserted.
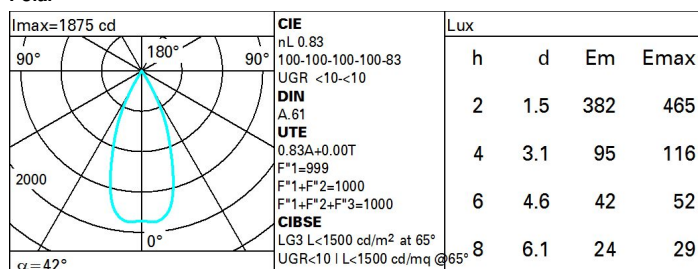

Complies with EN60598-1 and pertinent regulations
