Product configuration: EH61

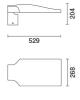

EH61: Pole-mounted system - ST1 optic - Warm White - MidNight - ø 46-60-76mm

Product code

EH61: Pole-mounted system - ST1 optic - Warm White - MidNight - ø 46-60-76mm Attention! Code no longer in production

Technical description

Outdoor luminaire with direct light street optic, designed to use LED lamps. The optical assembly and the pole attachment system are made of EN1706AC 46100LF aluminium alloy, subjected to a multi-step, pre-treatment process, in which the main phases are degreasing, fluorozirconation (a protective surface film) and sealing (with a nano-structured silane layer). The painting stage consists of a primer and a textured liquid acrylic paint, cured at 150 °C, with a high level of weather and UV ray resistance. Option of adjusting the inclination in relation to the road surface of +20^o/5° (in 5° steps) for a pole-top installation and +5^o/20° (in 5° steps) for a lateral installation. 5 mm thick sodium-calcium closing glass secured to product with 4 screws. The high IP rating is guaranteed by the silicone gasket placed between the two elements. Complete with monochrome LED circuit and polymer optic multilayer lenses. Electronic control gear with 100%-70% Middle of the Night profile. Driver with automatic internal temperature control system. Overvoltage protection: 10KV Common Mode and 6KV Differential Mode. Optic and wiring compartment can be opened with everyday tools. The light flow emitted in the upper hemisphere of the system in the horizontal position is null (in conformity with the strictest standards for the prevention of light pollution). All external screws are made of stainless steel.

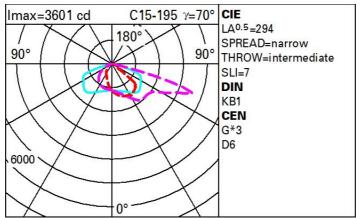

Installation

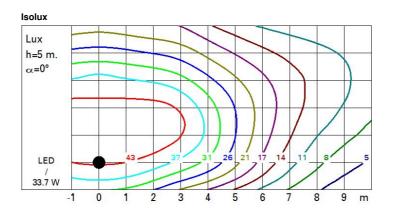

The floodlight can be installed with pole-top or lateral mounting using a die-cast aluminium pole-top for end diameters of ø 46/60/76 mm.
