Design G. Aulenti - P. iGuzzini Castiglioni

Last information update: December 2024

Product configuration: MH08

MH08: track-mounted luminaire with 3 optical assemblies - warm white passive dissipation LEDs - integrated electronic control gear - flood

Product code

MH08: track-mounted luminaire with 3 optical assemblies - warm white passive dissipation LEDs - integrated electronic control gear - flood Attention! Code no longer in production

Technical description

Multi-lamp luminaire for application on three-phase mains voltage track. LED lamps with passive heat dissipation system. Entirely aluminium frame; track coupling system with frame connecting brackets, equipped with graduated joints and mechanical locks; adapter for connection to track is separate from the structure; die-cast aluminium universal joints; can be adjusted +/- 45° relative to the horizontal and vertical axes. Die-cast aluminium optical assemblies. Shaped so that heat is effectively carried away, guaranteeing that the performance of the lamps remains unaffected. PMMA emission optics. Textured PMMA additional optic screens - flood beam angle. Electronic control gear units integrated in the control assembly. Warm white high efficiency LEDs.

Installation

on three-phase track using mechanical couplings

•

Colour Grey (15)

Mounting

three circuit track

Wiring

Connected to electrified track by adapter

Notes

the light beam can be varied by replacing the optics fitted with optional optics available with various beam angles; without additional optics the product emission is with a spot beam angle.

Complies with EN60598-1 and pertinent regulations
