**Product code**

MXR3: Minimal recessed linear profile for Ledstrip 6 mm - L=2000 **Attention! Code no longer in production**

**Technical description**

Rigid aluminium profile designed for fully recessed installation, insertable in 12.5 mm thick false ceilings. Ideal for minimal lines of lighting that are flush with the ceiling and without borders (after filling and finishing). The profile is specifically designed for applying a 6 mm strip with a milky elastomer protective cover; this connection allows you to create ultraslim luminous lines that are flush with the ceiling.

**Installation**

recessed on specially milled slots; the profile is secured to the false ceiling ( 12.5 mm thick) with screws (not included); the end of the profile should be plastered, sanded and painted to ensure it blends in with the ceiling. Accessory end caps.

**Colour**

Aluminium (12) | White (01)

**Weight (Kg)**

0.74

**Mounting**

wall recessed|ceiling recessed|ceiling surface
